Section I – Introduction

This directory provides a list of HealthPartners UnityPoint Health network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

As a HealthPartners UnityPoint Health member, we encourage you to choose one of our network providers who are listed in this directory to be your Primary Care Clinic (PCC). Your PCC is the entry point for most of your health care needs and will collaborate with other health professionals and coordinate your care with the appropriate specialists. You don't need a referral from your PCC in order to see a specialist in the network.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from out-of-network providers.

Out-of-network providers are under no obligation to treat HealthPartners UnityPoint Health enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Member Services department at 888-360-0544, **Oct. 1 through March 31**, we take calls from 8 a.m. to 8 p.m. CT, **seven days a week**. You'll speak with a representative. From **April 1 to Sept. 30**, call us 8 a.m. to 8 p.m. CT, **Monday through Friday** to speak with a representative. On Saturdays, Sundays and Federal holidays, you can leave a message and we'll get back to you within one business day. TTY users should call 711. You may also refer to your Evidence of Coverage (EOC) for more information, including the cost sharing that applies to out-of-network services.

You can choose to receive care from out-of-network providers. Our plan will cover services from either in-network or out-of-network providers, as long as the services are covered benefits and are medically necessary. However, if you use out-of-network providers, your share of the costs for your covered services may be higher.

In most cases, if you get care from an out-of-network provider, that provider must be eligible to participate in Medicare. Except for emergency care, we cannot pay a provider who is not eligible to participate in Medicare. If you receive care from a provider who is not eligible to participate in Medicare, you will be responsible for the full cost of the services you receive. Check with your provider before receiving services to confirm that they are eligible to participate in Medicare.

You don't need to get a referral or prior authorization when you get care from out-of-network providers. However, before getting services from out-of-network providers you may want to ask for a pre-visit coverage decision to confirm that the services you are getting are covered and are medically necessary.

If an out-of-network provider asks you to pay for covered services, please contact Member Services. To submit claims, you should mail them to:

HealthPartners UnityPoint Health Claims Dept.

8170 33rd Ave. S.
P.O. Box 1289
Minneapolis, MN 55440-1289

You should never pay any out-of-network provider more than what the plan is allowed by Medicare. The provider has a right to get his/her fees, but doesn't have a right to get them from you. If an out-of-network provider sends you a bill that you think we should pay, please contact Member Services. Generally, it is best to ask an out-of-network provider to bill Original Medicare first, and then to bill us for the remaining amount. We may require the out-of-network provider to bill Original Medicare. We will then pay any applicable Medicare coinsurance and deductibles minus your copayments on your behalf.

You may get covered emergency medical care whenever you need it, anywhere in the United States or its territories. When you are outside the service area and cannot get care from a network provider, you can access emergency and urgently needed services from any provider.

You must use plan providers except in emergency or urgent care situations. Emergency care can always be obtained in or out of the service area from the nearest available provider. When in the service area you must use plan providers for urgent care. When out of the service area, urgent care may be obtained from the first available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider. With the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers.

Urgent/after-hours care

HealthPartners UnityPoint Health contracts with 22 facilities of this type.

Providers are organized first by state, city, then alphabetically by facility name.

What is the CareLineSM service?

After regular clinic hours, call our CareLine service to talk directly with skilled nurses who are specially trained to help you over the phone. A CareLine nurse might suggest home care, a visit to your clinic the next day, a trip to an urgent care clinic, or a visit to an emergency room. Whatever your health care needs or questions, CareLine nurses will give you guidance based on the condition you describe and, if necessary, direct you to the facility that is most appropriate for your situation. They'll even contact the urgent care center so they're prepared to meet your needs when you arrive.

What urgent care centers are available?

The urgent care centers listed on the following pages are available to all HealthPartners UnityPoint Health members — just walk in. In addition, some clinics offer urgent care on site (see clinic listings). The urgent care centers affiliated with your regular clinic will most likely be able to get access to your medical records and more easily coordinate any needed follow up care.
